## Summary

I am an experienced Mechanical Engineer with background in the Oil & Gas and Project Management fields. Through my career, I have been capable of dealing with problems in a practical manner to reach a beneficial agreement for the different project parties. I have been capable of fulfilling the project requirements through the utilization of organized techniques and with strict adherence to deadlines. I have proven to be an effective team player whilst also being capable of using my own initiative.

## Work History

---

**M/LWD Field Engineer II, Weatherford, UAE**  
2014 – Present

Provides on-site supervision of the Measurement While Drilling (MWD) & Logging While Drilling (LWD) process including tool preparations, data acquisition, log generation, quality control and the delivery of the services to the customer. Monitor the performance and QC of equipment, directional surveys and well logging data. Ensure Weatherford's Quality and HSE standards are met and maintained.

**Project Coordinator, Döhler Egypt**  
2013-2014

Managed the design and construction of a fruit and flavors processing plant with a total budget of \$ 12 Million. Monitored costs, timescales and resources used to achieve production plan. Served as the single point of contact for project scheduling and construction activities. Managed the installation and commissioning of a new production line.

**Sales Executive, Wadi Degla Real Estate**  
2012-2013

Responsible for the sales of 5 real estate developments. Overachieving monthly targets. Retained and ensured the proper handling of the relation with existing clients.
